“ Well I guess my last message was too long but it was how I felt. I'll make it short. I miss my brother and I think he was awesome. I wish I could have spent more time with him and I really should have. What I liked about him was how upbeat he always seemed to be. The last words I heard from him was "I love you brother". A hug and he was gone. Now he's gone forever. I'll miss my brother more than anyone of you will ever know!###imported-begin##David Taylor###imported-end##

“ My big brother was taken from us before I was ready for him to leave. He was a bit older than me but when I was a kid and he visited us it was alot like Christmas. It was extremely special and I've always looked up to him and will miss him more than anyone in this world will know. When our father died he and Libby took me in. They both had huge hearts.

*I vividly remember the last thing my brother said to me. "I love you brother". A big hug and he left. Thank you Leah, that event took place because you had asked me to come by and see everyone. If not I would not be able to remember the last time I talked to Billy.*

*I guess in this world you have to take your memories and keep them in your heart. I know I have some great memories and they will be there until the day I die. I love you Billy. I always have and I always will. Thank you for being my big brother! Rest in peace and I will never forget you. I will miss you for the rest of my life.###imported-begin##David Taylor###imported-end##*
