“ *Mr. Bobby has been and always will be a big part of our family. We moved here in 1989 and he was the second person we got to know and have been best of friends every since that day. What a loving & caring man he was. He would give you the shirt off of his back. It did not matter what PHS was selling he would buy what ever was being sold. Also the biggest fan of Roll Tide. You could not miss his motor home when he went to the games. It was always the one with the grill & smoker going. Rest in rest my friend*
