“ My dad wasn't with me when I was little and Uncle Jack was my second dad and I loved him. He had his moments but he kept me and Kevin in line, which was a good thing. He put us to work and I learned a lot from him. I was in awe of his intelligence and great memory. I'm a lucky man to have known him and I wish I got to spend more time with him as I got older. I will always remember all the great times at the farm, the fishing trips, and all the animals around the place. I love you Uncle Jack.

MW

Jack was a free hearted man ,would give his shirt off his back to any one that needed it , Jack was Jack , I remember many years ago I was going by his house headed to the Airport to do some instruments flying up to muscle shoals airport ,lightly raining with the clouds about 300 feet high , Jack went with me , we and the instructor took off with Jack in the back seat and sock in the low black cloud ,as I was climbing out through the clouds the first word that was spoken was Jack , He said this is the most unnecessary trip that I've ever been on,

HW

I loved many things about him. I especially admire how he poured his heart into his wood works. He made so many really beautiful items.

Jack was a kind hearted person. As i was dealing with meniere's disease and was dizzy, he went home and made a walking cane for me which i will treasure.
