“ James Russell was my childhood friend and I cannot begin to describe what life was like growing up with James Russell. We played yard ball of all types road bicycles up and down Hwy 22. Played in the ice and snow , drank all the grape juice in the church community cups one Sunday afternoon between services. When Willie Amber would leave for work at 2 pm some days he would jump off one of the old cars with Marcell on the porch yelling and he would pick me up ages 14-15 ride all over the countryside. Even pick up a hitch hiker once a girl she needed a ride to Mt Hebron area lol. We camped we fish and one day a little bear creek the motor he put on back of boat fell off into about 15' ft deep of water below Williams holler. Lou Ezell carried us in his boat and diving James Russell found and brought up that old 7 Hp Elign Motor. See you on the other side buddy. Your friend Michael L Grissom
