“ *I've known you for as long as I remember. My mother and you were attached to each other, I remember you giving me a haircut, don't think it was the first, but it is the 1st one I remember. Going to the beach with you, you could always make me laugh, you were always around, like a bonus parent (but you would let me tell you things I would never tell anyone else). You were a fun time in a person, with your sense of style to your laugh. I don't have a single memory of not knowing you. You were there when my 1st child was born, and you loved her too. So I say all that to say this, I love you, i've always loved you, I will always love you!! I will also miss you.*
