“ Margaret and I worked together at Russellville for 20 years . We kelp in touch over the years and would talk and catch up on everything and everyone. While she was fighting her cancer she would call me and we would laugh and talk about people we worked with and things that happened . Sometimes she would say we need to get together with some of our friends from work and go out and eat together, but unfortunately that never happened because of her health . Fly high Margaret and laugh at the good times like we always did , love you Friend ❤️
